

NEED EXTRA REACH?

The Telescopic Piling and Drilling Extension effectively increases your machine's reach for increased drilling depth or screw anchor installation.

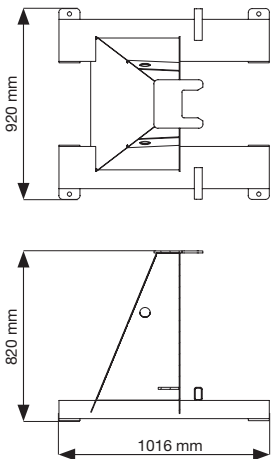

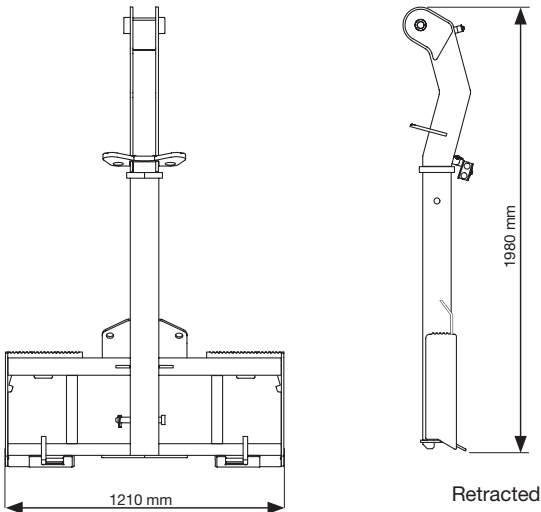

Features

- Provides 3.5 – 4 metres of ground clearance for screw anchors or augers.
- Unique design gives the operator greater range and visibility.
- Can be extended for an additional 915mm reach.
- Engineered for drives up to 22,000 Nm.
- 2 models available PD3 to PD10HF & PD12 to PD22
- Suitable for most auger drive brands.

OPTIONAL TRANSPORT FRAME

The optional transport frame provides maximum stability and compact storage for transport & ease of fitment to machine.

OVERALL HEIGHT - RETRACTED	1980mm
OVERALL HEIGHT - EXTENDED	2895mm
